TSI's 4G Internet Kit rental contains everything you need to get up to 5 devices online at your event. We offer expansion options to support 10 or 15 WiFi devices by adding 1 or 2 additional Verizon 4G modems, respectively. It's perfect for surfing the web, software demos, checking email, and video streaming. Setup is easy – simply plug and play in 2 minutes with our Quick Start Guide. No IT experience, software downloads, or special knowledge is required. The kit provides wired and wireless (WiFi) Internet connectivity. If you plan to use WiFi, please verify in advance that all of your devices are 5 GHz (802.11a) compatible. When in a 4G coverage area, you can expect speeds from 2-15 Mbps down, and 1-5 Mbps up. Rates include unlimited Internet usage and telephone technical support.

4G Internet Kit rental includes: CradlePoint mobile broadband router, Verizon 4G modem, backup Verizon 4G modem, Verizon signal booster antenna, AT&T 4G modem, Quick Start Guide, and 1 standard 5-foot network cable that connects to your computer.

The customer is responsible for all rental charges, shipping and handling fees, third party delivery fees including drayage and union handling, late return fees, and charges for lost/damaged/stolen equipment. Electrical must be ordered separately through the approved vendor. TSI will provide an 80% refund for an order cancelled by the customer at least 14 days prior to the requested delivery date. A 100% cancellation fee applies to all other cancellations. A limited number of kits are available on a first-come first-served basis. Prices are subject to availability.
