Our 4G Internet Kit rental contains everything you need to get up to 4 computers online at your event. It's perfect for surfing the web, checking email, and video streaming. Setup is easy – simply plug and play in 2 minutes with our Quick Start Guide. The kit provides wired and wireless (WiFi) Internet connectivity. No IT experience, software downloads, or special knowledge is required.

4G Internet Kit rental includes: CradlePoint mobile broadband router, Verizon USB modem, signal booster antenna, Quick Start Guide, and 1 standard 5-foot network cable that connects to your computer. Each kit provides enough bandwidth for up to 4 computers connecting via hard-wire or wireless (WiFi). If you have more than 4 users, we recommend you rent an additional kit. When in a 4G coverage area, expect speeds up to 15 Mbps down/5 Mbps up. The Verizon USB modem is backward compatible to the 3G network. When in a 3G coverage area, expect speeds up to 1.4 Mbps down/800 Kbps up. Rates include unlimited Internet usage and telephone technical support.

A prepaid FedEx return label will be included for convenient return. If you prefer our on-site delivery option, please specify your preferred date and time for our trained technician to setup and pickup your equipment. We also rent iPads, kiosks, laptops, LCDs and plasma monitors. We provide a customized LeadCatalyst System to help you capture and convert leads. Please contact us for a quote.

The customer is responsible for all rental charges, shipping and handling fees, third party delivery fees including drayage and union handling, late return fees, and charges for lost/damaged/stolen equipment. Electrical must be ordered separately through the approved vendor. TSI will provide an 80% refund for an order cancelled by the customer at least 14 days prior to the requested delivery date. A 100% cancellation fee applies to all other cancellations. A limited number of kits are available on a first-come first-served basis. Prices are subject to availability.
